

Minotour[®]

Whether there are 30 kids on a route, or just 14, any head count is large enough to make safety the paramount feature of our bus construction. That's why we equipped the compact Minotour with all the peace-of-mind features that come standard in our larger buses, like the one-piece skirt-to-skirt roof bows and 12-gauge steel wrap around bumper. And while safety simply isn't an option for the Minotour, you'll find an impressive list of features that can be customized to your specifications. At Thomas Built, we've been building safe buses that meet all of your needs since 1936. And with one of the most extensive dealer networks in the industry, there's always support nearby when you need it.

BODY SPECIFICATIONS

Passenger capacity
